

REA VIPINGO PLANTATIONS LIMITED

Questions raised by Shareholders at the Virtual Annual General Meeting held on Wednesday 27th March 2024.

Wanjala Genevieve W

Question: Maybe the meeting could use the blended mode with those who can attend physically (in-person) doing so at a selected venue; while those who cannot attend physically, do so virtually?

Answer: The company believes that virtual meetings enable a wide cross-section of members to attend as witnessed by the fact that 364 members have registered for this meeting. We all appreciate that virtual meetings offer unparalleled flexibility and convenience, and members can join meetings from different time zones, making it easier to accommodate global members.

Gateru Anthony Kimani

Question: Value addition, woven basket for shoppers in an era where environmental degradation from micro plastics is a major global concern.

Answer: This is indeed a great comment in the wake of global sustainability agenda. We have looked at the feasibility and the weaving capacities within the group, it will not be economically viable for us to venture into this.

Owino James Edwin Zalo

Question: Can we please have a physical meeting for the next meeting?

Answer: Virtual meetings provide a maximum participation of the shareholders and through the virtual meetings more members have been able to attend as seen from the attendance register compared to previous years when we used to hold physical meetings.
